

Client Assessment

Monroe County Hospital Albia, IA

Greg Paris
Chief Executive Officer
641-932-2134

Merritt Hawkins & Associates' goal is to build enduring partnerships with its clients. In the following assessment, Greg Paris, Chief Executive Officer of Monroe County Hospital in Albia, Iowa, discusses the ongoing successful relationship we have developed with this facility.

“Our most recent recruitment challenge for which we used Merritt Hawkins & Associates was in Family Practice. We chose to use Merritt Hawkins & Associates again based on the success they have achieved for us in the past.”

“This was a tough search, to which the firm responded very well. Using Merritt Hawkins & Associates' process and resources, we were able to complete the search in about four months.”

“The firm has displayed a number of strengths in our working relationship. The three I would identify are good communication, superior organization, and consistent follow through.”

“We have had the occasion to use other search firms in the past. However, I have had consistent success with Merritt Hawkins & Associates and cannot say that about any other firm.”

“In analyzing their search process there is really nothing I would change, and I would certainly turn to Merritt Hawkins & Associates again in the future.”
