In the course of developing working relationships with our clients, Merritt Hawkins & Associates is pleased to receive letters indicating that we have performed up to expectations.

The following is text of one such letter received from Mary Bechler, Executive of CNOS.

“We at CNOS want to express to you our appreciation for the business relationship that we have enjoyed over the past year and a half. Your firm has successfully placed two Orthopaedic candidates whom we had been searching on our own for the past several years. We were impressed with the number of quality of candidates you recommended.”

“We worked with two representatives during our Orthopaedic searches. We found both of the representatives to take their work very seriously and professionally. They were very fair and honest and we appreciate working with people of this caliber. They have a strong attention to detail as well as good communication and follow-through.”

“They made it their business to understand this unique opportunity and this community. We enjoyed working with them and would have no hesitation in recommending them to future clients.”
