Merritt Hawkins & Associates is proud of the fact that clients call on us to fill some of their most challenging physician search assignments. An example is Palms West Hospital in Loxahatchee, Florida, with which we have worked for over five years.

Glenda Williams, Director of Physician Recruitment/Relations with Palm West Hospital, provides the following assessment of our services.

“Our facility is able to meet the majority of our medical staffing needs on our own, but there are times when we require outside assistance. When a particularly challenging search arises, I call on Merritt Hawkins & Associates. As a large national firm, Merritt Hawkins & Associates offers the resources needed to sill tough search assignments. In particular, they are able to source both hard to find specialists and those physicians who may have an interest in relocating to our area. For example, they assisted us in recruiting both a pediatric neurosurgeon and a pediatric gastroenterologist.”

“In addition to their broad range of resources, I have been impressed by the professionalism and dedication of the individual Merritt Hawkins & Associates consultants with whom I have worked. They provide both a valuable source of consultation and the work ethic needed to be consistently successful in physician search today.”

“I value Merritt Hawkins & Associates as a resource and continue to use them when we require outside assistance.”
