

Client Assessment

Medina Memorial Healthcare System Medina, NY

Diane L. Knight
Practice Administrator for Obstetrics/Gynecology
Medina Memorial Healthcare System
Medina, NY

At Merritt Hawkins & Associates, our consultants are dedicated to meeting the needs of our clients and ensuring the best possible match between the client and candidate. In the following client assessment, Diane L. Knight, Practice Administrator for Obstetrics/Gynecology at Medina Memorial Healthcare System in Medina, New York, discusses how Merritt Hawkins & Associates' approach was effective for her facility.

“At Medina Memorial Health System we were looking for an OB/GYN to fill a space at our Women's Health Center—not just any physician, but the right fit for the rest of our group. Medina is a small rural community and the geographic location is not for everyone.”

“I worked closely with an associate of Merritt Hawkins. We kept in close contact and screened and talked about potential candidates. He understood the kind of fit I was looking for.”

“Merritt Hawkins kept close contact with me on every detail leading up to the interview. They followed up even after the physician was hired.”

“I have worked with other firms in the past, and Merritt Hawkins & Associates exceeded my expectations by far. I found that my recruiter was very attentive to the needs of the Women's Health Center. I believe we have found the right fit for the center.”

“I not only would recommend Merritt Hawkins & Associates, I would use them again to fill other openings within the organization.”
