

Client Assessment

North Medical, P.C. Liverpool, NY

Derrick L. Murry
Chief Operating Officer
North Medical, P.C.
Liverpool, NY

Merritt Hawkins & Associates is a full-service physician search and consulting firm. We take pride in our ability to understand our clients' needs and find the right physician for their facility. In the following client assessment, Derrick L. Murry, Chief Operating Officer for North Medical, P.C. in Liverpool, New York, describes the comprehensive search plan that Merritt Hawkins & Associates created and implemented for his facility.

“We were seeking urgent care physicians, internists and family practice physicians for our practice. However, our search was hindered by a small candidate pool and our geographic location.”

“Merritt Hawkins & Associates responded to our needs very aggressively. Their staff met with us, did a site assessment and put together a comprehensive presentation of our opportunity.”

“Merritt Hawkins has been an excellent partner in assisting our facility in locating viable physician candidates for open medical staffing needs. *By far, they have provided the most comprehensive service of any physician recruitment firm I have ever utilized.* They are cost effective and have an extremely professional and proficient staff that understands physician recruitment and placement activities.”

“I would work with Merritt Hawkins again in the future and I've already recommended them to others.”
