Merritt Hawkins & Associates has established a record of working effectively with in-house recruiting personnel and with independent recruiting consultants used by hospitals and health networks to coordinate physician recruiting efforts.

Following is an assessment of our services by Carol Berry, an independent physician search consultant retained by Sutter Health facility in Vallejo, California.

“Merritt Hawkins & Associates is well known throughout the physician recruiting industry for both the work they do and the quality of the information they provide on topics ranging from physician compensation to regulatory compliance. I had worked with the firm before contracting with Sutter and was impressed by their effectiveness and attention to detail.”

“Merritt Hawkins & Associates has been instrumental in providing me with well qualified candidates in a very timely manner. I appreciate the fact that they only send me candidates that fit Sutter’s requirements. Though they are one of the largest firms in their industry, I have consistently received a very personalized service. Their ability to communicate effectively and appropriately is a major asset, but the bottom line is their ability to consistently identify physicians matching our needs. Their consistency and ability to provide a timely service are what distinguishes Merritt Hawkins & Associates from other firms I have worked with.”

“I would absolutely use them again.”
