

## CLIENT ASSESSMENT

Adie Martin  
Practice Manager  
Allergy & Asthma Professionals  
Wynnewood, Pennsylvania

Merritt Hawkins' position as the leader in physician search and consulting is based on the unique level of resources we provide to our clients and on the unrivalled expertise and commitment of our Recruiting and Marketing Consultants. In the following client assessment, Adie Martin, Practice Manager with Allergy and Asthma Professional in Wynnewood, Pennsylvania, contrasts Merritt Hawkins' service with that of another search firm.

"Our need was for both a physician Board Certified in Internal Medicine and for a Board Certified specialist in Allergy, Asthma and Immunology. This was a very challenging task given the extremely small pool of candidates to choose from."

"Merritt Hawkins response to this challenge was excellent. We had previously used a search firm that was smaller in scope than Merritt Hawkins with little to poor results."

"Merritt Hawkins, by contrast, provided us with excellent candidates. They are a large firm with a recent track record of successful subspecialty placement, which is what we needed. They also offer a professional, encouraging team of consultants."

"I have worked with other search firms in the past and **there is no comparison with Merritt Hawkins, with whom we had an excellent experience.**

"It was a learning experience for us all and I would absolutely recommend Merritt Hawkins to others and use the firm again!"
