

Client Evaluation:

NexxRad Teleradiology Partners
Signal Hill, California

Michael Gordon
Vice President of Operations
NexxRad Teleradiology Partners
Signal Hill, California

As the nation's leading physician search and consulting firm, Merritt Hawkins has developed expertise and resources in the recruitment of physicians to a wide range of practice settings – including teleradiology and other telehealthcare settings. In the following client evaluation, Michael Gordon, Vice President of Operations with NexxRad Teleradiology Partners in Signal Hill, California, discusses how Merritt Hawkins was successful for his teleradiology group.

“We partnered with Merritt Hawkins in the recruitment of radiologists providing nighthawk teleradiology coverage for our group.”

“These were challenging searches given the small candidate pool. In general, recruiting for overnight teleradiology positions is really difficult.”

“Merritt Hawkins responded to our needs by providing a consistent pipeline of good candidates.”

“In evaluating Merritt Hawkins' services, I would point to patience and persistence as two key strengths the company exhibits. Our Merritt Hawkins recruiting consultant is now very familiar with our operations and there is a good work flow for introducing candidates and setting up interview calls.”

“In looking at the way the process was conducted I can't think of anything that I would change.”

“I would both work with Merritt Hawkins again and recommend them to others.”
